GOOD OPENING DAY

HOPKINS HAD BIG CROWD AT HER CHAUTAUQUA.

INDIAN ENCAMPMENT

Work is Interesting All of the Young People of That Town—Burlington Junction Assembly Now On.

The first day of Hopkins' first Chautauqua closed Wednesday night after an afternoon and evening of excellent entertainment. At the close of the evening program the members of the Chautauqua committee were well pleased with the success of the day. Expressions were heard on all sides as to what a fine program had been given and what a large crowd there was.

The weather man gave Hopkins one of the hottest days of the season, but the Chautauqua grounds were cool and free from dust, and the people enjoyed the comfort of staying there.

The afternoon program began on time with music by the Anitas Singing Orchestra. The six young women who compose the orchestra were well received by the audience. This number was followed by the lecture of Rev. Fred J. Clark on "The Human Yardstick." The lecture was very interesting and dealt with the interdependence of the individuals in society. The idea was brought out that no man can stand alone, but must be measured, in comparison with the people he comes in contact with.

Rev. Clark is one of Denver's preachers, and he took an active part in the social and political reforms in that city.

The most interesting feature of the Chautauqua for the little people was the organization of the Seeton Indian work. Fifty children joined the movement yesterday afternoon, and more will probably come in later. Earl Miller and James Ulmer were chosen chiefs of the opposing tribes.

The evening program began at 8 o'clock, and was given over to a concert by the Anitas Singing Orchestra. The solo work was especially good, but the singing and dancing in costume seemed to take best with the audience.

The crowd at the evening program was so large that the management had to apologize for the lack of seats and promised more for the future.

The second day's program began this morning with the Indian encampment. There was not a white child in the town. Instead there was an excited band of redskins decked out in paint, feathers, beads and khaki.

The program for this afternoon consisted of music by the Drexler-Fox company and a lecture, "The Road to Get-There," by Dr. Frederick E. Hopkins.

Tonight an entertainment will be given by the Drexler-Fox company, and Halwood Robert Manlove will give his character interpretations.

WAS THE OPENING DAY.

The Burlington Junction Chautauqua Opened Today—A Large Number of Tickets Sold.

The Burlington Junction Chautauqua opened this afternoon. It is the same one that is being given in Hopkins by the Vawter system. Today's program was given by the Anitas Singing Girls and Fred J. Clark, lecturer.

The committee met this morning to count up the receipts of the advance sale of tickets and found that more than the necessary guarantee of $600 had been taken in.

Visited in Iowa.

C. Stein, living east of Maryville, returned Wednesday evening from a visit at Ft. Madison and Burlington, Ia.

Went to St. Joseph.

Mrs. H. A. Brody of Wilcox, Mrs. F. M. Brumbaugh and Miss Ruth Brumbaugh of Mt. Auburn, Ia., and Miss Nelle Brody of Vinton, Ia., were in Maryville Wednesday on their way to St. Joseph to visit Mr. and Mrs. Charles Brody.

WILL FILL SEVERAL DATES.

Maryville Ladies Military Band Will Start Soon to Fill Engagements—Busy Until October.

The Maryville Ladies Military band will hold its first summer's engagement at the Barnard picnic, August 7, 8 and 9.

On the evening of the 9th the band will return to Maryville and go into camp at the Maryville Chautauqua for that event and will give several concerts during the following nine days, as given on the Chautauqua program.

The Monday following, August 19, the band will go to Higginsville for a four days' engagement at the fair. They will play at several other towns near Higginsville before coming home. They are offered a place and engagement for Labor day in Kansas City, but have not yet decided to take it.

They will play the second week in Clarinda for the fair, which will be held September 10 to 12.

They also have an invitation to go to King City for the band contest to be held there, and Mrs. J. T. Wagers of that place, who is the manager of the King City band, which won first prize in the band contest in St. Joseph last fall, will open her home to the girls of the Maryville Ladies Military band during their stay there.

Miss Nash and her band had to turn down the offer to play at the Maitland fair on account of the pre-arrangement with Higginsville. Miss Nash is securing $2.50 per day for each member of her band above expenses.

TOOK NAP IN HIS BUGGY.

While His Horse Was at the Fountain, Constable Dick Snyder Fell Asleep.

Some people need their sleeping porches, hammocks and pallets in order to rest comfortably these nights, but Constable Richard Snyder can, without a bit of trouble, woo Morpheus in the hot afternoon sunshine.

The other afternoon he drove his horse up to the drinking fountains on the northeast corner of the square and settled back comfortably in the roomy seat of his phaeton to wait the horse's pleasure. Now of all corners of the square, that corner is the hottest, but Dick did not seem to mind it. He sat there, while the horse drank, and ruminated on the pleasures of life. Gradually his field of vision shortened; the fountain became invisible; the horse's ears could be seen no more, and soon Dick's head was nodding as he snoozed in oblivious contentment.

The horse, a peaceful animal, drank his fill and waited for a command from his driver. No such command coming, he, too, went to sleep. Then Dick woke up, woke the horse and drove away much rested after his nap.

THE TWILIGHT TOUR

RUN MADE TO PICKERING AND HOPKINS WEDNESDAY EVE.

FOR THE CHAUTAUQUA

Fifteen Cars Made the Trip and Party Attended the Hopkins Chautauqua.

The twilight tours advertising the Nodaway Chautauqua took a big boom Wednesday. The trip Wednesday evening, the second of the tours, was made to Pickering and Hopkins. The cars, fifteen of them, left Maryville at 6:40 p. m. Other cars followed later in the evening.

The run to Pickering was made in half an hour. The band played two selections at that place. Then the party left for Hopkins. The business section of Hopkins was almost deserted because of the Chautauqua, so nothing was done down town. The party went to the chautauqua grounds, but not wishing to interfere with the program going on there no music was played. The cars returned at different times, some staying until after the program.

Those who went in the cars with the regular party were:

Car 1—Kyle Phares, Dr. Earl Braniger, Mrs. E. C. Phares, Mrs. Estelle Craig and Miss Maude Bainum.

Car 2—Mr. and Mrs. M. A. Peery and daughter, Prof. and Mrs. T. B. Maulding.

Car 3—Paul Denny, Lou Denny, J. S. Clark and Ed Schumacher.

Car 4—G. V. Hanna, Leon Canon, Stewart Farrar, Floyd Miller and Leo Moody.

Car 5—Leo Atherton, P. O. Landon, Kirby Taylor, Cecil Sheldon and Mel Atherton.

Car 6—Mrs. John Kane, Charles Kane, Michael Kane, Mrs. Ed Ferritor and James McMonigal.

Car 7—Cecil Wilson, Louis DeHart, Miss Maurine DeHart and George Soper.

Car 8—Mr. and Mrs. Byron Rhodes, Mr. and Mrs. W. C. Pearson and daughters.

Car 9—Mr. and Mrs. Roy Curfman and daughter; Mrs. John Curfman, Misses Maud Gay and Irene Swinford.

Car 10—Mr. and Mrs. George Conrad, Mr. and Mrs. Arch Frank and daughter.

Car 11—Mr. and Mrs. Ed Otis, Mr. and Mrs. Aaron Felix.

Car 12—Mr. and Mrs. R. G. Sanders and Miss Ruth O'Malley of Albany.

Car 13—E. E. Williams, Dr. Frank Wallis, Frank Schumacher and Paul Basford.

Car 14—Mr. and Mrs. Ed Curfman and family.

Car 15—Dr. and Mrs. Jesse Miller and family and Miss Abshire.

Married by Rev. Harkness.

Charles F. Galbreith of Shenandoah, Ia., and Miss Alice Heisler of Maryville were married this afternoon by Rev. S. D. Harkness of the Presbyterian church. The young couple will make their home in Shenandoah.

Is Still Unconscious.

Today is the fifth day that Clarence Marker of Ravenwood has lain unconscious since striking his head in a fall from his bicycle. He is at St. Francis hospital in this city.

On Trip to Michigan.

Mrs. George L. Reynolds left Thursday noon for Grand Rapids, Mich., to visit her brother, Dr. J. L. Lazier, whom she has not seen for sixteen years. She will be gone two months.

Attorney L. C. Cook went to Rock Port Thursday morning on business.

W. L. Garver, the National Organizer of the Socialist Party Will Speak Here.

W. L. Garver, the national organizer of the Socialist party, will speak in Maryville on Thursday evening, August 7, in the court house yard after the band concert that evening. Mr. Garver is a good talker and no doubt will have a good crowd to hear him.

TOOK THE SECOND GAME.

The Pirates Won, So Now a Third Game Will Have to Be Played.

The Pirates took the second game of the post-season series from the Gicubs Wednesday afternoon 6 to 3, making it necessary to play the third game. The winners made nine hits, the Gicubs eight. Fielding honors broke even, with two errors on each side.

The batteries were: Pirates, Ham and M. Wilson; Gicubs, Birch and Wogan.

BOUGHT CATTLE IN CHICAGO.

Maryville Men Returned Thursday Morning From Dan Hanna's Sale.

Eugene Ogden and Harold Bellows returned Thursday morning from Chicago, where they attended the closing out sale of the Shorthorn cattle herd of Dan Hanna of Ravenna, O.

Mr. Bellows purchased thirteen animals, cows with calves at foot, for the Bellows Brothers' herd of Maryville.

Mr. Ogden bought a cow and calf, but sold them.

FARMERS TRUST COMPANY.

The New Company Will Open for Business Tomorrow—Charter and Incorporation Papers Filed.

The Farmers Trust company, which is the merged institution of the Maryville National bank and the Gillam, Bellows & Pierce Loan and Abstract company, will start business under its new name tomorrow. The charter of the new company and also its incorporation papers were filed today with Recorder J. Arthur Wray.

The directors of the new company are George L. Wilfley, W. C. Pierce, C. D. Bellows, S. H. Kemp and George Robb Ellison.

COUNTRY RESIDENCE BURNED.

Mrs. Eliza Morris, Living Northeast of Guilford, Meets With Loss.

The residence of Mrs. Eliza Morris, living three and one-half miles northeast of Guilford, burned to the ground Thursday about 11 o'clock a. m. A defective flue was the cause.

Mrs. Morris, who is about 70 years old, and her daughter, Miss Lena Morris, have been living alone on her place. They are now at the home of John Donaldson, a half mile distant.

Mrs. Morris' loss is about $800. There was no insurance on house or contents, and very few things were saved.

GAVE HIS LAST LECTURE.

Superintendent Whiteford Spoke of Standard of a Good Teacher—Praised the Normal.

Prof. John A. Whiteford, superintendent of the St. Joseph schools, finished his series of lectures at the Normal this morning. He returned to St. Joseph this evening. The last lecture of Mr. Whiteford was especially good, and it dealt with the standard of a good teacher. He told what he would want to find in the school room when he went to visit it. He spoke on the personal appearance of the teacher and how it affected his standing in the community, and that his personal appearance should be so that he would not attract attention.

"In order for a teacher to do efficient work," says Mr. Whiteford, "there must be the proper relation or spirit between the teacher and the children. The teacher must be tactful and meet the situations in the right manner. The first qualification of a teacher is that he or she be a gentleman or a lady."

Prof. Whiteford spoke of the advancement the Normal had made, and enlists his co-operation with the institution.

Dr. Bushnell Can't Come.

The big mass meeting which was to have been held at Graham on Sunday, August 3, has been called off, as the speaker of the meeting, Dr. Albert Bushnell of Kansas City, will be unable to be present.

Rev. and Mrs. S. D. Harkness and family will leave Friday evening for a few weeks' visit at Kimball, S. D.

A RAIN IS NEEDED

SOME DAMAGE TO CORN OWING TO THE DRY WEATHER.

OTHER CROPS ARE GOOD

Good Wheat and the Oats and Rye Up to the Standard—Rain is Badly Needed in the Corn Belt.

The weekly weather report of the United States weather bureau at Washington sends out the following summary for Missouri:

"The week was unfavorable, more or less severe drouth prevailing. There were some local showers, but heavy rains are much needed."

The need of rain is general throughout the corn belt of Missouri. In Nodaway county rain is much needed and corn has been hurt to some extent. The dry weather must be broken shortly, as the corn is tasseling out in many localities, and the late corn will also be tasseling out in a little while.

The corn condition in this county is not as bad as it is in some other places. In Central Missouri corn has been badly damaged by the drouth.

Other crops in Nodaway county are bumper ones. Wheat was never better and so are oats and rye. Gus King of near Clyde reports a yield of forty bushels of wheat to the acre for forty-six acres. His oats averaged sixty bushels to the acre for ten acres.

T. J. Komer of near Hopkins reports 1,324 bushels of wheat from twenty-seven acres of ground, or a fraction over forty-nine bushels to the acre. In cash it brought the producer $36.75 an acre, so it will be seen that the wheat crop of Northwest Missouri is a big thing.

FIGHT OF DISEASE.

Says Preventive Medicine Will Be in Public Schools.

Preventive medicine will probably be added to the courses in Missouri public schools soon, according to Dr. W. J. Calvert. This branch of medicine is little more than ten years old, but it has led to a 50 per cent reduction in certain diseases and has almost stamped out others.

"People are learning that the time to fight disease is before it appears," said Dr. Calvert, in an address before students in the summer session. "Scientific schools are furnishing information as to the preventive measures needed, and, thanks to the cooperation of newspapers the country over, the people are learning how to prevent disease by proper sanitary conditions and other preventive measures.

"Not till 1895 was the manner in which diseases are spread, learned by the medical profession. The prevention of yellow fever in Havana, formerly a yellow fever hotbed, and the work done in the Panama canal zone, where a district formerly fever-ridden, was made as healthy as our cities, taught the people, through the columns of the daily newspapers, that there are too many diseases and that diseases can be prevented. The work of the department here has gone forward fast, and I believe in two or three years there will be a great demand for teachers equipped to teach preventive medicine."

Mrs. P. M. Taylor went to Hopkins Thursday to remain until Monday. Mr. Taylor drove his popcorn wagon through to Hopkins Thursday morning and took the children with him.

THE WEATHER

Probably thunder storms this afternoon; fair tonight and Friday; cooler tonight; moderate northwest winds, becoming variable.

All Are For Good Roads Days.

Missouri is getting a world of desirable advertising over the good roads holidays, August 20 and 21. Half a million men, it is believed, will forsake their farms, shops and stores on that occasion and show their interest in better highways by actually helping to make them. County courts, highway engineers and commercial clubs should begin right now to plan for the work. Main roads from town to town, from county to country or from school house to school house should be mapped out in such a fashion that every mile will be covered by machines and men during these two days, as was done in Iowa last year when a fine highway was built entirely across the state in one day. Let one neighborhood or district take up the work where another leaves off, and let every merchant or professional man who is unable to do his share of the labor furnish an able-bodied substitute. Governor Major, under whose administration more money will be spent for better roads than was spent under any two other adminitsrations combined; will close his office and wield a pick and shovel both days. He used to work out his poll tax on the roads and believes he can do as much shoveling today as any other man of his age in Missouri. Anyway, he expects to do his part and will be disappointed if half a million other men who have been boosting for better roads do not join him in showing their faith by their works.

Returned For Visit in Iowa.

Mr. and Mrs. Jacob B. Moore returned Wednesday night from a two weeks' visit with relatives at Dubuque and Epworth, Ia. Mr. Moore was born and reared at Epworth, and was the first white boy born in that town, having been born in 1855. He enjoyed his visit very much at Epworth.

Communication

Some Good Suggestions.

Editor Democrat-Forum: As Governor Major has requested that the rural letter carriers be allowed to assist in his good road day exercises on August 20 and 21, I, as one of those carriers, feel moved to offer some suggestions in regard to the preparation for getting the greatest possible amount of work done on those days:

I notice in many places throughout the country that the roadside is covered by a heavy growth of weeds and grass, which will have to be removed before anything can be done toward grading the road. If these weeds are put in the road they are a detriment, and if hauled away it will require a great deal of time and labor, which should be put to better use. Now if the weeds were mowed down within the next week they will be dry enough to burn readily by the date set for the road working, and could in that way be disposed of quickly and effectually.

The mowink might be done by some one who can donate a day or two now as conveniently as three weeks hence, or it might be by some one in working out his poll tax. Another reason the weeds should be mowed now, is that they have not yet ripened their seed, while in three weeks from now many of them will have ripened the seed for next year's crop. So by cutting them now the roads may be made more attractive this year and free from weeds next year.

Hoping these suggestions may result in some good, I am,

Yours for good roads,
O. G. NULL,
R. L. C., Route 1.

Left For Illinois.

Rev. Dr. F. D. Sheets, Mrs. Sheets and Miss Harriet Sheets left at 6 o'clock Thursday morning in their car for their home in Aurora, Ill. They stopped at Creston for a short visit with Miss Ella Marie Waterman, and will then take the Des Moines trail home. Miss Sheets has been the guest of Miss Ruth Montgomery since the close of Northwestern university, two months ago, where they are students, and her parents came to accompany her home. Miss Sheets' brother, Harold Sheets, has charge of the Standard Oil company's interests in Southern Europe. His headquarters are in Paris.

Miss Shelton Married.

Miss Delilah Shelton and Mr. Palmer Conant were married Monday, July 28, in Denver, Col. Miss Shelton has always made her home south of Maryville until about three years ago when she went to Monte Vista, Col., where she became a reporter for the Monte Vista Journal, the leading newspaper of the town. She was returning to Colorado after a visit to her parents, Mr. and Mrs. M. P. Ross, south of Maryville, when she was met in Denver by Mr. Conant and the marriage ceremony took place. Mr. Conant is the youngest son of Mr. and Mrs. C. S. Conant of Monte Vista. The former has been the editor and publisher of the Journal of that place for the past twenty years. The young couple have many friends to wish them much happiness in their married life. They will make their home in Monte Vista, where the groom is connected with his father in the newspaper work.

Country Club Meeting.

The Country club held its first meeting for some time Wednesday evening at the home of Mr. and Mrs. John White, and there will be more meetings now that the threshing season in that neighborhood is becoming less strenuous. The members played forty-two the greater part of the evening, when the hostess served a delightful two-course luncheon. There were several visitors among the guests, newlyweds among them. Those present were Mr. and Mrs. T. M. Trullinger, Mr. and Mrs. Earl Trullinger of Cape Girardeau, Mo.; Mr. and Mrs. William Job, Jr.; Mr. and Mrs. William Job, Sr.; Will H. Davenport and Miss Edna Davenport of St. Petersburg, Fla.; Mr. and Mrs. Dale Shelton, Mr. and Mrs. Ernest Shelton, Will White, Mr. and Mrs. Odshell, Mr. and Mrs. Orville Willhoyte, Mrs. M. J. A STRAIGHT TALK TO THE MEN WHO PAY THE BILLS

Why should you pay the highest possible price for the discomfort, drudgery and fuel waste of an inefficient furnace?

Most any furnace will produce a certain amount of heat, but the furnace desired is one that will produce the greatest possible amount of heat at the lowest possible cost, and conserve that heat to the exact points to be heated.

Before buying investigate. We want to show you the patented features of the XXth Century, which cannot be had in any other furnace.

There are no "imitations" nor "just as good." There are many XXth Century furnaces being used in Maryville. Ask about them.

TORM SWEEPS WASHINGTON

Dale in National Capital Leaves Death and Ruin in Wake.

THREE DEAD, SCORES INJURED

Fifteen Persons Carried Down in Wreck of Three-Story Building. Damage to Property Amounts to Hundreds of Thousands.

Washington, July 31.—Like a giant flail, a cyclonic storm of wind, rain and hail whipped back and forth across the national capital, leaving death and ruin in its wake. Three were killed, scores injured and hundreds of thousands of dollars' worth of property destroyed, according to hurried canvass made when the city aroused itself from half an hour of helplessness in the grasp of the elements.

Out of a blazing sky, under which the city was sweltering, with the temperature at the 100 point, came the storm roaring from the north, driving a mass of clouds that cast a mantle of total darkness over the town. The gale, reaching a velocity of nearly seventy miles an hour, swept the streets clear, unroofed houses, tore detached small structures from their foundations, wrecked one office building, overturned wagons and carriages in the streets and swept Washington's hundred parks, tearing huge branches from trees and even uprooting sturdy old elms, the landmarks of a century.

Streets Littered.

Washington's well kept streets, with their wealth of trees, are littered with broken boughs, roofs and dead birds.

As the wind wreaked its havoc the rain came and in five minutes the temperature from the 100 mark dropped to between 60 and 70. Then the rain turned to hail and hailstones crashed through skylights and windows.

For half an hour the city cowered, paralyzed under the beating of the storm, every activity suspended. Trolley lines, telephone lines and street traffic were halted and the government departments suspended operations.

Three-Story Building Wrecked.

The wind wrecked a three-story brick office building, occupied by the B. S. Saul company, real estate dealers, and fifteen persons were carried down in the crash. W. E. Hilton, vice president of the real estate company; Thomas B. Fealey, a clerk, and an unidentified man who entered the building to rescue those caught in the wreck, were taken to hospitals seriously injured and half a dozen more were treated for slight injuries.

The neatly kept lawns of the White House were devastated. Three huge elm trees, uprooted by the wind, were thrown bodily across the lawn and up to the very portico of the building, blocking the drives.

President Wilson was seated in the executive offices when the wind crashed through several windows in the White House proper. Secretary Tumulty hurried the president and Representative Korbly of Indiana, with whom he was conferring, to a sheltered interior room.

AMBASSADOR ON GRILL

Henry Lane Wilson Cross-Examined by Senate Committee.

Washington, July 31.—At the end of a three-hour examination of Ambassador Henry L. Wilson, members of the senate foreign relations committee said the ambassador had been asked in detail as to his own connection with the downfall of Madero, but they insisted his presentation of facts and his connection with them had been "favorably received."

The ambassador expressed his own opinion in favor of recognition of the Huerta government, but the proposal did not meet approval from the majority of the committee. Before Mr. Wilson finished his story, senators led him through a rigid cross-examination. Republican senators declared the ambassador had made a "favorable impression." The committee took no formal action on any phases of the Mexican situation. No program of American action was outlined, further than the suggestions of Ambassador Wilson for restricted recognition of the Huerta government. On this the committee did not act.

SHOUT "DEATH TO DIAZ"

Los Angeles Police Guard Mexican General From Rebels.

Los Angeles, July 31.—Shouting "Death to Diaz," a strong contingent of Mexican rebel sympathizers gave a riotous reception here to General Felix Diaz, instigator of the revolution in Mexico City, which culminated in the death of President Madero. He was saved finally by a platoon of police, who with drawn clubs drove back the excited crowd. Diaz arrived from San Diego on his way north to board ship as Mexico's special envoy to Japan.

Mrs. Rigby Given Term for Arson.

Liverpool, July 31.—Mrs. Edith Rigby, a well known suffragette, was sentenced to nine months' hard labor for setting fire to the country residence of Sir William H. Lever at Irvington, Lancashire, on July 8, and causing damage estimated at $100,000.

BARNARD ITEMS.

Barnard high school grounds are being improved this week by a new walk into the main entrance and also on the east of the grounds.

The last surgical operation performed on Miss Zelia DeWitt of this place, but now in Colorado, was a success, and it is understood that Rev. DeWitt will start home with her soon.

Miss Mattie Wilson, who was kicked by a cow a short time ago and had some of her ribs fractured, is getting along all right and will soon be able to go about her usual work.

Mrs. A. M. Vanfossen of near Barnard has been sick for two or three weeks but is reported better.

Mr. John Fields makes an excellent grain pitcher as well as a good cashier of the Barnard bank. He has had a large amount of grain of his own to thresh out. He said it would average a little better than thirty bushels to the acre.

Mr. John Rasco and wife are away at the present time visiting in Wyoming.

Mr. Charles Eaton, who was one of the soldiers of this county who went to Gettysburg, reports a great and profitable time spent there.

Mr. and Mrs. James Weir of Andrew county visited at Rev. Royston's over Sunday.

The threshing machines are all busy around Barnard. The farmers were never busier than now and hands are scarce. Some people complain about dry weather, but if we had not had a good spell of this kind of weather this summer the farmers would have lost a good portion of their grain.

GUILFORD NEWS ITEMS.

Mrs. Andrew McClintock and children have gone to Jolly, Ia., for a jolly good time visiting relatives.

Miss Gladys Clemmons was happily surprised Tuesday evening by a number of her playmates in honor of her tenth birthday anniversary. Various games were played and ice cream and cake served.

Wray & Ivie are very busy these days taking care of the golden grain that is being garnered from the wonderful wheat fields around Guilford and shipped out. Twelve cars have been shipped to the present time. They are buying at Guilford, Cawood and Monastery Siding, a mile south of Conception Junction.

Rev. T. J. Reznor and Mrs. Reznor of Amazonia have been visiting at Guilford among old friends. The Christian church people are contemplating a permanent organization here and Rev. Reznor will assist them in getting the work started, which has been in need of a pastor for some time. Rev. Reznor was a former teacher and minister in Guilford, and has many friends in the community, regardless of church affiliation. The Christian church people gave a lawn social on the lawn of the I. O. O. F. building Saturday evening for the purpose of raising funds to get their church work started.

S. P. TRAINMEN VOTE TO STRIKE

Employees Will Walk Out If Demands Are Not Met.

COMPANY TO SEEK MEDIATION.

Territory Affected Extends South from Portland to Gulf and West from El Paso and Ogden—Friction Over Electric Lines.

San Francisco, July 31.—Ninety-six per cent of the trainmen and conductors employed on the Pacific division of the Southern Pacific system have voted to strike unless their differences with the management over the terms of employment, rates and seniority allowed on the company's electrized lines can be adjusted. The result of the vote, which stands 3,816 in favor of striking to 187 against, was made public.

Southern Pacific officials announced that they will invoke the mediation of the national government, through the Newlands act, to settle their differences with their employees.

In the meantime the engineers, firemen and enginemen have requested the conductors and trainmen to defer final action until their own attitude can be determined and a united stand taken.

Approximately 7,500 men are involved and the territory affected extends south from Portland, Ore., to the Gulf of Mexico and west from Ogden and El Paso.

The result of the vote was communicated to the company and thirty hours later no reply had been received.

Friction has arisen between the company and the men because of the company's announcement that hereafter it will be its policy to segregate electric lines as separate units of operation, distinct from the main steam lines.

GASOLINE BLAST IS FATAL

Two Dead and Six Dying as Result of Motorcycle Track Accident.

Cincinnati, July 31.—Two are dead and six will die, according to attending physicians, and eleven others are seriously injured as the result of a motorcycle accident at the Lagoon motordrome.

Odin Johnson of Salt Lake, captain of the Cincinnati team, which was contesting at the motordrome, drove his cycle to the extreme top of the circular track, crashed into an electric light pole, broke it off and the contact of the live wire with the machine exploded the gasoline tank, throwing the burning fluid over a score of spectators.

Johnson paid the penalty with his life, while William Davis, aged five years, also is dead as the result of the accident.

Six others, two women and four men, cannot live, while others are regarded at the Kentucky hospitals as in a serious condition.

DEBATE ON TARIFF BILL

Kenyon Says Iowa and He Not Afraid of Measure.

Washington, July 31.—Democrats and Republicans of the senate clashed again in debate on the Underwood-Simmons tariff bill when Senator Stone charged that the Republicans deliberately were attempting to bring on a panic in their speeches attacking the measure. Republican leaders, denying any intention to bring about disaster, declared they feared that such actually would be the result.

While Republican and Democratic leaders were engaged in hot debate, Senator Kenyon averred that in his talks he always had stated he did not believe the pending bill would result in disaster and that the people of his state did not believe so either.

"Oh, I was not referring to the Progressive Republicans," said Senator Stone. "I meant that the majority of the minority were attempting to arouse the people."

MID-WEST UNDER HEAT WAVE

Country East of Rockies Swelters Under High Temperatures.

Chicago, July 31.—Mid-summer heat, bringing to many cities temperatures as high as 106 and making the 100 degree mark common over wide areas, extended throughout the central states.

Generally described, the heat wave extended from the Rocky mountains to the Atlantic coast, but the maximum temperatures were reported from points between Kansas and Ohio. In those and intervening states the mercury bounded well above 100.

Over Missouri, Illinois, Iowa and eastern Nebraska the heat generally was about the 100 mark.

Kansas Roads Haul Seed Wheat Free.

Topeka, July 31.—The public utilities commission has granted the railroads in the state authority to transport seed wheat free of freight charges between all points in Kansas. This was done in response to the petition of a committee of citizens from the southwestern part of the state, a district that has been affected by the dry weather.

Train Delayed by Grasshoppers.

Dodge City, Kan., July 31.—"Train No. 564 delayed forty minutes; stalled by grasshoppers," was the report received at the Rock Island station here.

Blind Corners.

A number of citizens of the county have suggested that more precaution be taken in the prevention of accidents along the roads in the different parts of the county, says the Hopkins Journal. Although there has been no serious accidents, it would be well to look into this and avoid such accidents.

In driving over the country one will find a number of "blind crossings" in the roads that are dangerous, owing to the fact that tall weeds and hedge have grown up. In many places it is impossible to see an approaching vehicle for a distance of more than five feet.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eastachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

THIS LADY'S GOOD APPETITE

Mrs. Hansen, In a Letter From Mobile, Tells How She Gained It.

Mobile, Ala.—"I suffered for seven years, with womanly trouble," writes Mrs. Sigurd Hansen in a letter from this city. "I felt weak and always had a headache and was always going to the doctor. At last I was operated on, and felt better, but soon I had the same trouble.

My husband asked me to try Cardui. I felt better after the first bottle, and now, I have a good appetite and sleep well. I feel fine, and the doctor tells me I am looking better than he ever saw me."

If you are sick and miserable, and suffer from any of the pains due to womanly trouble—try Cardui.

Cardui is successful because it is composed of ingredients that have been found to act curatively on the womanly constitution.

For more than fifty years, it has been used by women of all ages, with great success. Try it. Your druggist sells it.

GOOD OPENING DAY

HOPKINS HAD BIG CROWD AT HER CHAUTAUQUA.

INDIAN ENCAMPMENT

Work is Interesting All of the Young People of That Town—Burlington Junction Assembly Now On.

The first day of Hopkins' first Chautauqua closed Wednesday night after an afternoon and evening of excellent entertainment. At the close of the evening program the members of the Chautauqua committee were well pleased with the success of the day. Expressions were heard on all sides as to what a fine program had been given and what a large crowd there was.

The weather man gave Hopkins one of the hottest days of the season, but the Chautauqua grounds were cool and free from dust, and the people enjoyed the comfort of staying there.

The afternoon program began on time with music by the Anitas Singing Orchestra. The six young women who compose the orchestra were well received by the audience. This number was followed by the lecture of Rev. Fred J. Clark on "The Human Yardstick." The lecture was very interesting and dealt with the interdependence of the individuals in society. The idea was brought out that no man can stand alone, but must be measured, in comparison with the people he comes in contact with.

Rev. Clark is one of Denver's preachers, and he took an active part in the social and political reforms in that city.

The most interesting feature of the Chautauqua for the little people was the organization of the Seeton Indian work. Fifty children joined the movement yesterday afternoon, and more will probably come in later. Earl Miller and James Ulmer were chosen chiefs of the opposing tribes.

The evening program began at 8 o'clock, and was given over to a concert by the Anitas Singing Orchestra. The solo work was especially good, but the singing and dancing in costume seemed to take best with the audience.

The crowd at the evening program was so large that the management had to apologize for the lack of seats and promised more for the future.

The second day's program began this morning with the Indian encampment. There was not a white child in the town. Instead there was an excited band of redskins decked out in paint, feathers, beads and khaki.

The program for this afternoon consisted of music by the Drexler-Fox company and a lecture, "The Road to Get-There," by Dr. Frederick E. Hopkins.

Tonight an entertainment will be given by the Drexler-Fox company, and Halwood Robert Manlove will give his character interpretations.

WAS THE OPENING DAY.

The Burlington Junction Chautauqua Opened Today—A Large Number of Tickets Sold.

The Burlington Junction Chautauqua opened this afternoon. It is the same one that is being given in Hopkins by the Vawter system. Today's program was given by the Anitas Singing Girls and Fred J. Clark, lecturer.

The committee met this morning to count up the receipts of the advance sale of tickets and found that more than the necessary guarantee of $600 had been taken in.

CROW, The Photographer

WILL FILL SEVERAL DATES.

Maryville Ladies Military Band Will Start Soon to Fill Engagements—Busy Until October.

The Maryville Ladies Military band will hold its first summer's engagement at the Barnard picnic, August 7, 8 and 9.

On the evening of the 9th the band will return to Maryville and go into camp at the Maryville Chautauqua for that event and will give several concerts during the following nine days, as given on the Chautauqua program.

The Monday following, August 19, the band will go to Higginsville for a four days' engagement at the fair. They will play at several other towns near Higginsville before coming home. They are offered a place and engagement for Labor day in Kansas City, but have not yet decided to take it.

They will play the second week in Clarinda for the fair, which will be held September 10 to 12.

They also have an invitation to go to King City for the band contest to be held there, and Mrs. J. T. Wagers of that place, who is the manager of the King City band, which won first prize in the band contest in St. Joseph last fall, will open her home to the girls of the Maryville Ladies Military band during their stay there.

Miss Nash and her band had to turn down the offer to play at the Maitland fair on account of the pre-arrangement with Higginsville. Miss Nash is securing $2.50 per day for each member of her band above expenses.

While His Horse Was at the Fountain, Constable Dick Snyder Fell Asleep.

Some people need their sleeping porches, hammocks and pallets in order to rest comfortably these nights, but Constable Richard Snyder can, without a bit of trouble, woo Morpheus in the hot afternoon sunshine.

The other afternoon he drove his horse up to the drinking fountains on the northeast corner of the square and settled back comfortably in the roomy seat of his phaeton to wait the horse's pleasure. Now of all corners of the square, that corner is the hottest, but Dick did not seem to mind it. He sat there, while the horse drank, and ruminated on the pleasures of life. Gradually his field of vision shortened; the fountain became invisible; the horse's ears could be seen no more, and soon Dick's head was nodding as he snoozed in oblivious contentment.

The horse, a peaceful animal, drank his fill and waited for a command from his driver. No such command coming, he, too, went to sleep. Then Dick woke up, woke the horse and drove away much rested after his nap.

THE TWILIGHT TOUR

RUN MADE TO PICKERING AND HOPKINS WEDNESDAY EVE.

FOR THE CHAUTAUQUA

Fifteen Cars Made the Trip and Party Attended the Hopkins Chautauqua.

The twilight tours advertising the Nodaway Chautauqua took a big boom Wednesday. The trip Wednesday evening, the second of the tours, was made to Pickering and Hopkins. The cars, fifteen of them, left Maryville at 6:40 p. m. Other cars followed later in the evening.

The run to Pickering was made in half an hour. The band played two selections at that place. Then the party left for Hopkins. The business section of Hopkins was almost deserted because of the Chautauqua, so nothing was done down town. The party went to the chautauqua grounds, but not wishing to interfere with the program going on there no music was played. The cars returned at different times, some staying until after the program.

Those who went in the cars with the regular party were:

Car 1—Kyle Phares, Dr. Earl Braniger, Mrs. E. C. Phares, Mrs. Estelle Craig and Miss Maude Bainum.

Car 2—Mr. and Mrs. M. A. Peery and daughter, Prof. and Mrs. T. B. Maulding.

Car 3—Paul Denny, Lou Denny, J. S. Clark and Ed Schumacher.

Car 4—G. V. Hanna, Leon Canon, Stewart Farrar, Floyd Miller and Leo Moody.

Car 5—Leo Atherton, P. O. Landon, Kirby Taylor, Cecil Sheldon and Mel Atherton.

Car 6—Mrs. John Kane, Charles Kane, Michael Kane, Mrs. Ed Ferritor and James McMonigal.

Car 7—Cecil Wilson, Louis DeHart, Miss Maurine DeHart and George Soper.

Car 8—Mr. and Mrs. Byron Rhodes, Mr. and Mrs. W. C. Pearson and daughters.

Car 9—Mr. and Mrs. Roy Curfman and daughter; Mrs. John Curfman, Misses Maud Gay and Irene Swinford.

Car 10—Mr. and Mrs. George Conrad, Mr. and Mrs. Arch Frank and daughter.

Car 11—Mr. and Mrs. Ed Otis, Mr. and Mrs. Aaron Felix.

Car 12—Mr. and Mrs. R. G. Sanders and Miss Ruth O'Malley of Albany.

Car 13—E. E. Williams, Dr. Frank Wallis, Frank Schumacher and Paul Basford.

Car 14—Mr. and Mrs. Ed Curfman and family.

Car 15—Dr. and Mrs. Jesse Miller and family and Miss Abshire.

Married by Rev. Harkness.

Charles F. Galbreith of Shenandoah, Ia., and Miss Alice Heisler of Maryville were married this afternoon by Rev. S. D. Harkness of the Presbyterian church. The young couple will make their home in Shenandoah.

The Farmers Trust company, which is the merged institution of the Maryville National bank and the Gillam, Bellows & Pierce Loan and Abstract company, will start business under its new name tomorrow. The charter of the new company and also its incorporation papers were filed today with Recorder J. Arthur Wray.

The directors of the new company are George L. Wilfley, W. C. Pierce, C. D. Bellows, S. H. Kemp and George Robb Ellison.

COUNTRY RESIDENCE BURNED.

Mrs. Eliza Morris, Living Northeast of Guilford, Meets With Loss.

The residence of Mrs. Eliza Morris, living three and one-half miles northeast of Guilford, burned to the ground Thursday about 11 o'clock a. m. A defective flue was the cause.

Mrs. Morris, who is about 70 years old, and her daughter, Miss Lena Morris, have been living alone on her place. They are now at the home of John Donaldson, a half mile distant.

Mrs. Morris' loss is about $800. There was no insurance on house or contents, and very few things were saved.

GAVE HIS LAST LECTURE.

Superintendent Whiteford Spoke of Standard of a Good Teacher—Praised the Normal.

Prof. John A. Whiteford, superintendent of the St. Joseph schools, finished his series of lectures at the Normal this morning. He returned to St. Joseph this evening. The last lecture of Mr. Whiteford was especially good, and it dealt with the standard of a good teacher. He told what he would want to find in the school room when he went to visit it. He spoke on the personal appearance of the teacher and how it affected his standing in the community, and that his personal appearance should be so that he would not attract attention.

"In order for a teacher to do efficient work," says Mr. Whiteford, "there must be the proper relation or spirit between the teacher and the children. The teacher must be tactful and meet the situations in the right manner. The first qualification of a teacher is that he or she be a gentleman or a lady."

Prof. Whiteford spoke of the advancement the Normal had made, and enlists his co-operation with the institution.

Dr. Bushnell Can't Come.

The big mass meeting which was to have been held at Graham on Sunday, August 3, has been called off, as the speaker of the meeting, Dr. Albert Bushnell of Kansas City, will be unable to be present.

Rev. and Mrs. S. D. Harkness and family will leave Friday evening for a few weeks' visit at Kimball, S. D.

A RAIN IS NEEDED

SOME DAMAGE TO CORN OWING TO THE DRY WEATHER.

OTHER CROPS ARE GOOD

Good Wheat and the Oats and Rye Up to the Standard—Rain is Badly Needed in the Corn Belt.

The weekly weather report of the United States weather bureau at Washington sends out the following summary for Missouri:

"The week was unfavorable, more or less severe drouth prevailing. There were some local showers, but heavy rains are much needed."

The need of rain is general throughout the corn belt of Missouri. In Nodaway county rain is much needed and corn has been hurt to some extent. The dry weather must be broken shortly, as the corn is tasseling out in many localities, and the late corn will also be tasseling out in a little while.

The corn condition in this county is not as bad as it is in some other places. In Central Missouri corn has been badly damaged by the drouth.

Other crops in Nodaway county are bumper ones. Wheat was never better and so are oats and rye. Gus King of near Clyde reports a yield of forty bushels of wheat to the acre for forty-six acres. His oats averaged sixty bushels to the acre for ten acres.

T. J. Komer of near Hopkins reports 1,324 bushels of wheat from twenty-seven acres of ground, or a fraction over forty-nine bushels to the acre. In cash it brought the producer $36.75 an acre, so it will be seen that the wheat crop of Northwest Missouri is a big thing.

FIGHT OF DISEASE.

Says Preventive Medicine Will Be in Public Schools.

Preventive medicine will probably be added to the courses in Missouri public schools soon, according to Dr. W. J. Calvert. This branch of medicine is little more than ten years old, but it has led to a 50 per cent reduction in certain diseases and has almost stamped out others.

"People are learning that the time to fight disease is before it appears," said Dr. Calvert, in an address before students in the summer session. "Scientific schools are furnishing information as to the preventive measures needed, and, thanks to the cooperation of newspapers the country over, the people are learning how to prevent disease by proper sanitary conditions and other preventive measures.

"Not till 1895 was the manner in which diseases are spread, learned by the medical profession. The prevention of yellow fever in Havana, formerly a yellow fever hotbed, and the work done in the Panama canal zone, where a district formerly fever-ridden, was made as healthy as our cities, taught the people, through the columns of the daily newspapers, that there are too many diseases and that diseases can be prevented. The work of the department here has gone forward fast, and I believe in two or three years there will be a great demand for teachers equipped to teach preventive medicine."

Mrs. P. M. Taylor went to Hopkins Thursday to remain until Monday. Mr. Taylor drove his popcorn wagon through to Hopkins Thursday morning and took the children with him.

THE WEATHER

Probably thunder storms this afternoon; fair tonight and Friday; cooler tonight; moderate northwest winds, becoming variable.

All Are For Good Roads Days.

Missouri is getting a world of desirable advertising over the good roads holidays, August 20 and 21. Half a million men, it is believed, will forsake their farms, shops and stores on that occasion and show their interest in better highways by actually helping to make them. County courts, highway engineers and commercial clubs should begin right now to plan for the work. Main roads from town to town, from county to country or from school house to school house should be mapped out in such a fashion that every mile will be covered by machines and men during these two days, as was done in Iowa last year when a fine highway was built entirely across the state in one day. Let one neighborhood or district take up the work where another leaves off, and let every merchant or professional man who is unable to do his share of the labor furnish an able-bodied substitute. Governor Major, under whose administration more money will be spent for better roads than was spent under any two other adminitsrations combined; will close his office and wield a pick and shovel both days. He used to work out his poll tax on the roads and believes he can do as much shoveling today as any other man of his age in Missouri. Anyway, he expects to do his part and will be disappointed if half a million other men who have been boosting for better roads do not join him in showing their faith by their works.

Returned For Visit in Iowa.

Mr. and Mrs. Jacob B. Moore returned Wednesday night from a two weeks' visit with relatives at Dubuque and Epworth, Ia. Mr. Moore was born and reared at Epworth, and was the first white boy born in that town, having been born in 1855. He enjoyed his visit very much at Epworth.

Communication

Some Good Suggestions.

Editor Democrat-Forum: As Governor Major has requested that the rural letter carriers be allowed to assist in his good road day exercises on August 20 and 21, I, as one of those carriers, feel moved to offer some suggestions in regard to the preparation for getting the greatest possible amount of work done on those days:

I notice in many places throughout the country that the roadside is covered by a heavy growth of weeds and grass, which will have to be removed before anything can be done toward grading the road. If these weeds are put in the road they are a detriment, and if hauled away it will require a great deal of time and labor, which should be put to better use. Now if the weeds were mowed down within the next week they will be dry enough to burn readily by the date set for the road working, and could in that way be disposed of quickly and effectually.

The mowink might be done by some one who can donate a day or two now as conveniently as three weeks hence, or it might be by some one in working out his poll tax. Another reason the weeds should be mowed now is that they have not yet ripened their seed, while in three weeks from now many of them will have ripened the seed for next year's crop. So by cutting them now the roads may be made more attractive this year and free from weeds next year.

Hoping these suggestions may result in some good, I am,

Yours for good roads,
O. G. NULL,
R. L. C., Route 1.

Left For Illinois.

Rev. Dr. F. D. Sheets, Mrs. Sheets and Miss Harriet Sheets left at 6 o'clock Thursday morning in their car for their home in Aurora, Ill. They stopped at Creston for a short visit with Miss Ella Marie Waterman, and will then take the Des Moines trail home. Miss Sheets has been the guest of Miss Ruth Montgomery since the close of Northwestern university, two months ago, where they are students, and her parents came to accompany her home. Miss Sheets' brother, Harold Sheets, has charge of the Standard Oil company's interests in Southern Europe. His headquarters are in Paris.

Miss Shelton Married.

Miss Delilah Shelton and Mr. Palmer Conant were married Monday, July 28, in Denver, Col. Miss Shelton has always made her home south of Maryville until about three years ago when she went to Monte Vista, Col., where she became a reporter for the Monte Vista Journal, the leading newspaper of the town. She was returning to Colorado after a visit to her parents, Mr. and Mrs. M. P. Ross, south of Maryville, when she was met in Denver by Mr. Conant and the marriage ceremony took place. Mr. Conant is the youngest son of Mr. and Mrs. C. S. Conant of Monte Vista. The former has been the editor and publisher of the Journal of that place for the past twenty years. The young couple have many friends to wish them much happiness in their married life. They will make their home in Monte Vista, where the groom is connected with his father in the newspaper work.

Country Club Meeting.

The Country club held its first meeting for some time Wednesday evening at the home of Mr. and Mrs. John White, and there will be more meetings now that the threshing season in that neighborhood is becoming less strenuous. The members played forty-two the greater part of the evening, when the hostess served a delightful two-course luncheon. There were several visitors among the guests, newlyweds among them. Those present were Mr. and Mrs. T. M. Trullinger, Mr. and Mrs. Earl Trullinger of Cape Girardeau, Mo.; Mr. and Mrs. William Job, Jr.; Mr. and Mrs. William Job, Sr.; Will H. Davenport and Miss Edna Davenport of St. Petersburg, Fla.; Mr. and Mrs. Dale Shelton, Mr. and Mrs. Ernest Shelton, Will White, Mr. and Mrs. Odshell, Mr. and Mrs. Orville Willhoyte, Mrs. M. J. STORM SWEEPS WASHINGTON

Gale in National Capital Leaves Death and Ruin in Wake.

THREE DEAD, SCORES INJURED

Fifteen Persons Carried Down in Wreck of Three-Story Building. Damage to Property Amounts to Hundreds of Thousands.

Washington, July 31.—Like a giant flail, a cyclonic storm of wind, rain and hail whipped back and forth across the national capital, leaving death and ruin in its wake. Three were killed, scores injured and hundreds of thousands of dollars' worth of property destroyed, according to hurried canvass made when the city aroused itself from half an hour of helplessness in the grasp of the elements.

Out of a blazing sky, under which the city was sweltering, with the temperature at the 100 point, came the storm roaring from the north, driving a mass of clouds that cast a mantle of total darkness over the town. The gale, reaching a velocity of nearly seventy miles an hour, swept the streets clear, unroofed houses, tore detached small structures from their foundations, wrecked one office building, overturned wagons and carriages in the streets and swept Washington's hundred parks, tearing huge branches from trees and even uprooting sturdy old elms, the landmarks of a century.

Streets Littered.

Washington's well kept streets, with their wealth of trees, are littered with broken boughs, roofs and dead birds.

As the wind wreaked its havoc the rain came and in five minutes the temperature from the 100 mark dropped to between 60 and 70. Then the rain turned to hail and hailstones crashed through skylights and windows.

For half an hour the city cowered, paralyzed under the beating of the storm, every activity suspended. Trolley lines, telephone lines and street traffic were halted and the government departments suspended operations.

Three-Story Building Wrecked.

The wind wrecked a three-story brick office building, occupied by the B. S. Saul company, real estate dealers, and fifteen persons were carried down in the crash. W. E. Hilton, vice president of the real estate company; Thomas B. Fealey, a clerk, and an unidentified man who entered the building to rescue those caught in the wreck, were taken to hospitals seriously injured and half a dozen more were treated for slight injuries.

The neatly kept lawns of the White House were devastated. Three huge elm trees, uprooted by the wind, were thrown bodily across the lawn and up to the very portico of the building, blocking the drives.

President Wilson was seated in the executive offices when the wind crashed through several windows in the White House proper. Secretary Tumulty hurried the president and Representative Korbly of Indiana, with whom he was conferring, to a sheltered interior room.

AMBASSADOR ON GRILL

Henry Lane Wilson Cross-Examined by Senate Committee.

Washington, July 31.—At the end of a three-hour examination of Ambassador Henry L. Wilson, members of the senate foreign relations committee said the ambassador had been asked in detail as to his own connection with the downfall of Madero, but they insisted his presentation of facts and his connection with them had been "favorably received."

The ambassador expressed his own opinion in favor of recognition of the Huerta government, but the proposal did not meet approval from the majority of the committee. Before Mr. Wilson finished his story, senators led him through a rigid cross-examination. Republican senators declared the ambassador had made a "favorable impression." The committee took no formal action on any phases of the Mexican situation. No program of American action was outlined, further than the suggestions of Ambassador Wilson for restricted recognition of the Huerta government. On this the committee did not act.

SHOUT "DEATH TO DIAZ"

Los Angeles Police Guard Mexican General From Rebels.

Los Angeles, July 31.—Shouting "Death to Diaz," a strong contingent of Mexican rebel sympathizers gave a riotous reception here to General Felix Diaz, instigator of the revolution in Mexico City, which culminated in the death of President Madero. He was saved finally by a platoon of police, who with drawn clubs drove back the excited crowd. Diaz arrived from San Diego on his way north to board ship as Mexico's special envoy to Japan.

Mrs. Rigby Given Term for Arson.

Liverpool, July 31.—Mrs. Edith Rigby, a well known suffragette, was sentenced to nine months' hard labor for setting fire to the country residence of Sir William H. Lever at Irvington, Lancashire, on July 8, and causing damage estimated at $100,000.

BARNARD ITEMS.

Barnard high school grounds are being improved this week by a new walk into the main entrance and also on the east of the grounds.

The last surgical operation performed on Miss Zella DeWitt of this place, but now in Colorado, was a success, and it is understood that Rev. DeWitt will start home with her soon.

Miss Mattie Wilson, who was kicked by a cow a short time ago and had some of her ribs fractured, is getting along all right and will soon be able to go about her usual work.

Mrs. A. M. Vanfossen of near Barnard has been sick for two or three weeks but is reported better.

Mr. John Fields makes an excellent grain pitcher as well as a good cashier of the Barnard bank. He has had a large amount of grain of his own to thresh out. He said it would average a little better than thirty bushels to the acre.

Mr. John Rasco and wife are away at the present time visiting in Wyoming.

Mr. Charles Eaton, who was one of the soldiers of this county who went to Gettysburg, reports a great and profitable time spent there.

Mr. and Mrs. James Weir of Andrew county visited at Rev. Royston's over Sunday.

The threshing machines are all busy around Barnard. The farmers were never busier than now and hands are scarce. Some people complain about dry weather, but if we had not had a good spell of this kind of weather this summer the farmers would have lost a good portion of their grain.

GUILFORD NEWS ITEMS.

Mrs. Andrew McClintock and children have gone to Jolly, Ia., for a jolly good time visiting relatives.

Miss Gladys Clemmons was happily surprised Tuesday evening by a number of her playmates in honor of her tenth birthday anniversary. Various games were played and ice cream and cake served.

Wray & Ivie are very busy these days taking care of the golden grain that is being garnered from the wonderful wheat fields around Guilford and shipped out. Twelve cars have been shipped to the present time. They are buying at Guilford, Cawood and Monastery Siding, a mile south of Conception Junction.

Rev. T. J. Reznor and Mrs. Reznor of Amazonia have been visiting at Guilford among old friends. The Christian church people are contemplating a permanent organization here and Rev. Reznor will assist them in getting the work started, which has been in need of a pastor for some time. Rev. Reznor was a former teacher and minister in Guilford, and has many friends in the community, regardless of church affiliation. The Christian church people gave a lawn social on the lawn of the I. O. O. F. building Saturday evening for the purpose of raising funds to get their church work started.

S. P. TRAINMEN VOTE TO STRIKE

Employees Will Walk Out If Demands Are Not Met.

COMPANY TO SEEK MEDIATION.

Territory Affected Extends South from Portland to Gulf and West from El Paso and Ogden—Friction Over Electric Lines.

San Francisco, July 31.—Ninety-six per cent of the trainmen and conductors employed on the Pacific division of the Southern Pacific system have voted to strike unless their differences with the management over the terms of employment, rates and seniority allowed on the company's electrized lines can be adjusted. The result of the vote, which stands 3,816 in favor of striking to 187 against, was made public.

Southern Pacific officials announced that they will invoke the mediation of the national government, through the Newlands act, to settle their differences with their employees.

In the meantime the engineers, firemen and enginemen have requested the conductors and trainmen to defer final action until their own attitude can be determined and a united stand taken.

Approximately 7,500 men are involved and the territory affected extends south from Portland, Ore., to the Gulf of Mexico and west from Ogden and El Paso.

The result of the vote was communicated to the company and thirty hours later no reply had been received.

Friction has arisen between the company and the men because of the company's announcement that hereafter it will be its policy to segregate electric lines as separate units of operation, distinct from the main steam lines.

GASOLINE BLAST IS FATAL

Two Dead and Six Dying as Result of Motorcycle Track Accident.

Cincinnati, July 31.—Two are dead and six will die, according to attending physicians, and eleven others are seriously injured as the result of a motorcycle accident at the Lagoon motordrome.

Odin Johnson of Salt Lake, captain of the Cincinnati team, which was contesting at the motordrome, drove his cycle to the extreme top of the circular track, crashed into an electric light pole, broke it off and the contact of the live wire with the machine exploded the gasoline tank, throwing the burning fluid over a score of spectators.

Johnson paid the penalty with his life, while William Davis, aged five years, also is dead as the result of the accident.

Six others, two women and four men, cannot live, while others are regarded at the Kentucky hospitals as in a serious condition.

DEBATE ON TARIFF BILL

Kenyon Says Iowa and He Not Afraid of Measure.

Washington, July 31.—Democrats and Republicans of the senate clashed again in debate on the Underwood-Simmons tariff bill when Senator Stone charged that the Republicans deliberately were attempting to bring on a panic in their speeches attacking the measure. Republican leaders, denying any intention to bring about disaster, declared they feared that such actually would be the result.

While Republican and Democratic leaders were engaged in hot debate, Senator Kenyon averred that in his talks he always had stated he did not believe the pending bill would result in disaster and that the people of his state did not believe so either.

"Oh, I was not referring to the Progressive Republicans," said Senator Stone. "I meant that the majority of the minority were attempting to arouse the people."

MID-WEST UNDER HEAT WAVE

Country East of Rockies Swelters Under High Temperatures.

Chicago, July 31.—Mid-summer heat, bringing to many cities temperatures as high as 106 and making the 100 degree mark common over wide areas, extended throughout the central states.

Generally described, the heat wave extended from the Rocky mountains to the Atlantic coast, but the maximum temperatures were reported from points between Kansas and Ohio. In those and intervening states the mercury bounded well above 100.

Over Missouri, Illinois, Iowa and eastern Nebraska the heat generally was about the 100 mark.

Kansas Roads Haul Seed Wheat Free.

Topeka, July 31.—The public utilities commission has granted the railroads in the state authority to transport seed wheat free of freight charges between all points in Kansas. This was done in response to the petition of a committee of citizens from the southwestern part of the state, a district that has been affected by the dry weather.

Train Delayed by Grasshoppers.

Dodge City, Kan., July 31.—"Train No. 564 delayed forty minutes; stalled by grasshoppers," was the report received at the Rock Island station here.

Blind Corners.

A number of citizens of the county have suggested that more precaution be taken in the prevention of accidents along the roads in the different parts of the county, says the Hopkins Journal. Although there has been no serious accidents, it would be well to look into this and avoid such accidents.

In driving over the country one will find a number of "blind crossings" in the roads that are dangerous, owing to the fact that tall weeds and hedge have grown up. In many places it is impossiole to see an approaching vehicle for a distance of more than five feet.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

THIS LADY'S GOOD APPETITE

Mrs. Hansen, In a Letter From Mobile, Tells How She Gained It.

Mobile, Ala.—"I suffered for seven years, with womanly trouble," writes Mrs. Sigurd Hansen in a letter from this city. "I felt weak and always had a headache and was always going to the doctor. At last I was operated on, and felt better, but soon I had the same trouble.

My husband asked me to try Cardui. I felt better after the first bottle, and now, I have a good appetite and sleep well. I feel fine, and the doctor tells me I am looking better than he ever saw me."

If you are sick and miserable, and suffer from any of the pains due to womanly trouble—try Cardui.

Cardui is successful because it is composed of ingredients that have been found to act curatively on the womanly constitution.

For more than fifty years, it has been used by women of all ages, with great success. Try it. Your druggist sells it.
